CARSHALTON BOYS SPORTS COLLEGE

Carshalton Boys Sports College was undergoing a phased refurbishment program and Pinnacle had been involved from the initial stages providing flexibility for reconfiguration of the room whilst providing storage for their considerable book collection.

An interior designer from Pinnacle Furniture worked with the college to create a colour scheme for the room. One of the main priorities was utilising to maximum effect the very high windows on three sides that gave the space a light, airy feel. The design scheme incorporated three accent colours (teal, sky blue and purple) that were used alongside the core finishes of light oak, white and charcoal.

The Quattro library unit range is unique as it is available in a huge range of colours; the unit carcasses were made in the accent colours while the shelves are a uniform grey. The Welcome reception counter added a vibrant first impression to the room as well as ensuring the librarian has excellent visibility throughout the library.

The centre of the library contained a number of Byte tables and chairs, soft seating and mobile library units that enabled multi-use teaching while also ensuring the entire space could be easily reconfigured. Fitted benching enables use of computers for research and fitted storage provides a place for bags.
