Abingdon School - Beech Court

Abingdon School appointed Pinnacle Furniture to design and complete the fit-out for their new 3-storey building, Beech Court. There were many areas present in this project including a Sixth Form Centre and a Library.

We worked collaboratively with all of the key stakeholders involved in this project, and meetings took place every 2-3 weeks, where we showed them new design ideas, revised colour choices and presented a 3D design model allowing us to make amends to the layout and colouring in real-time. During the briefing process the School felt strongly that they wanted the design of the new spaces to bridge the gap between secondary and further education.
