

The TeacherWall and StorageWall products are storage systems with nearly 250 configurable modules, specifically designed for use in educational environments.

OPTIONS

There are a number of options that ensure a fit with any design scheme:

- Over 36 finish options including wood grains and gloss white
- Locking and non-locking doors
- Metal or wooden storage shelves.

CONSTRUCTION

Durable construction is key to these products and there are a number of outstanding features incorporated:

- Secure captive sliding door runner system
- Hinges tested to 100,000 openings
- 22mm carcass construction with 16mm back panels
- 22mm wooden storage shelves with a metal shelf option
- Espagnolette locking system
- Soft-close rubber sealing system on the carcass.

TEACHERWALL

There is a range of modules specifically designed for classroom use that can incorporate interactive screens, whiteboard doors, AV and power capability, trays, teacher desks and many other options. A TeacherWall can help to organise flexible and multi-use teaching spaces and there are a number of modules specifically designed for primary school use and to support collaboration.

STORAGEWALL

StorageWall modules are used in offices, conference rooms and in teaching spaces where additional or extensive storage is required. The modules and accessories can incorporate filing storage, teapoints, display units, printer stations and TV reveals.

LOCKERWALL

LockerWall is a very versatile product with a range of locks, sizes and colour options that make it suitable for all age groups. The solid doors and carcass make this a very durable product.

OPERATING & MAINTENANCE INFORMATION

The range is considered to be primarily maintenance free, however the following should be observed during the products lifetime: Where cleaning is required a mild detergent solution should be used. The use of harsh abrasives, acids, alkalis or bleaching products is not recommended.

Following these procedures will ensure product longevity and ease of use.
