# City of London Academy

City of London Academy appointed Pinnacle Furniture to complete the FF&E Consultancy and to design the space, as well as supplying the furniture for the LRC in their newly built Sixth Form Centre.

The Pinnacle Design Team wanted to create different working zones within the LRC space so that students could choose where they studied, depending on the task. We provided acoustic pods, with integrated power modules, lighting and tables. Pinnacle supplied a mixture of products to increase the functionality of the space; bespoke banquette seating with grey upholstery, Myriad tables, sleek chairs with a natural oak frame, classroom tables and Postura Plus chairs.

Acoustic pod with lighting, power modules and table

Postura Plus chairs and Feast benches

Bespoke banquette seating

Convex high-back sofa with laptop tables

Myriad tables in the reception area
