2. Refurbishment
3. Aftercare Services

Blessed Hugh School

Blessed Hugh School gave Pinnacle the task of designing vandal-proof, durable washrooms which gave privacy to the users but were still easy to monitor, in order to prevent vandalism and misuse.

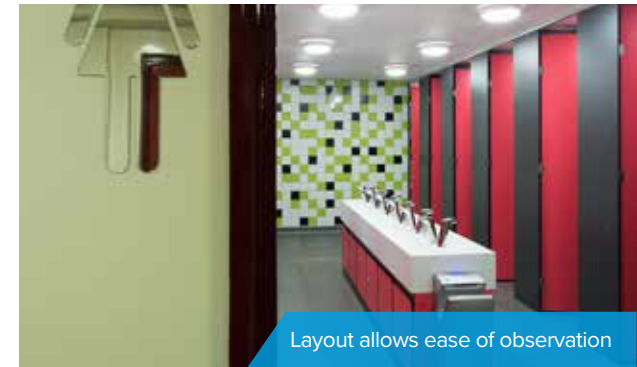

The washrooms were designed to open onto the corridor which allowed them to be supervised by teachers. However we maintained the privacy by installing full height solid grade laminate cubicle dividers and doors, which deters anti-social behaviour. We also installed duct panelling which prevents students accessing points behind the toilets and hiding items. Durable and long lasting vinyl flooring was laid down to ensure the washrooms can take a lot of wear.
