Downsend School

Pinnacle Furniture was approached by Downsend School in Leatherhead, to refresh their art room. The client wanted an inspiring, airy environment to engage the student's interest in creative and performing arts.

It was crucial to the school that the space would allow for flexible working and contain plenty of storage. We installed a TeacherWall at the front of the room with an integrated desk to provide functionality and storage for the teachers. The TeacherWall has Gratnell tray storage underneath to store student work, and we also fitted a StorageWall to house additional art equipment. Two large workbenches with integrated portfolio storage were provided in jade and light grey along with Capacity Storage, portfolio tables and Postura chairs.

TeacherWall system with storage

Plenty of working space was provided
