

PRODUCT KEY:

1. Capacity Science Storage with Velstone Worktop
2. TeacherWalls
3. Fume Cupboard

SERVICES:

1. Furniture
2. Refurbishment
3. Aftercare

Headington School

Headington School is a highly prestigious all-girls boarding school based in Oxford which was founded in 1951. The school appointed Pinnacle Furniture to help bring some life back into several areas of the building.

The overall area equated to 3,200 square feet and consisted of 7 science laboratories, 2 prep rooms and 2 corridors. In 4 of the science laboratories and 1 prep room we stripped out and fully refurbished the rooms using science Capacity Storage furniture. In 2 additional labs we supplied and installed Velstone worktops and for the remaining science lab and prep room we supplied new furniture. TeacherWalls were supplied in most of the science laboratories accommodating smart boards and traditional rollerboards.
