Nonsuch High School

Nonsuch High School required the design and creation of a learning resource centre in their new build 6th form block. Pinnacle were selected to create an inspirational and creative design that met the client's budget.

The client specifically required the 6th form to have flexible furniture in the centre to allow for a conference set up, however a relaxing and welcoming environment was also essential. The school's 6th form area is to be used for eating, informal working, group project work and relaxing in-between lessons. Banquette seating and tub chairs were supplied. The LRC had to provide shelving for a specific book capacity and a formal teaching area to be set apart but not fully obscured from the entrance to aid supervision.

Clear sightlines in the LRC area

Quattro bubble freestanding bookcases

Quattro library shelving

Large banquette seating area for group work

Banquette seating in purple and green
