St. Catherine's College

St Catherine's College commissioned Pinnacle to design and refurbish a new reception area and inclusion room. The client specifically stated that the school's colours should be incorporated across the areas.

The highlight of the reception area is the gloss laminate bespoke display unit. It houses a large TV which displays a slideshow of images of the school events, and below this was a shelf for displaying trophies. The unit is illuminated, creating a stunning feature for the reception area. Along with supplying a white contemporary reception counter and bright reception easy seating, we also refurbished an inclusion room and large food technology room. These included capacity units, SGL work surfaces and appliances.

Bespoke display unit

Reception easy seating

White reception counter

Vibrant EN chairs

Large food technology room

Durable grey speckled vinyl
