Slough and Eton School

Slough and Eton School, an existing client, approached Pinnacle Furniture to complete the refurbishment for a food technology room, a science laboratory, a DT area and two washrooms.

Pinnacle installed bold purple Capacity Storage units in the food technology room with integrated ovens, hobs, power modules, sinks and taps. At the front of the room, we fitted a TeacherWall and demonstration station for the teacher. In the washrooms, we reconfigured the space, making use of the redundant cleaner's cupboard, and created fresh, modern male and female washrooms. Pinnacle supplied more units from our Capacity Storage range for the science laboratory, which are tested and approved by FIRA.

Vibrant purple Capacity Storage units

Integrated sink and taps

Washroom with purple vanity units

Capacity Storage in the science laboratory
