Dunottar School

Pinnacle were commissioned by Dunottar School to refurbish their new sixth form area. The project involved redesigning the Sixth Form common room, teaching classrooms, recreation area and quiet study space.

To create both a practical and creative learning space for students and staff, we fitted Teacherwalls in the classrooms to provide adaptable teaching and maximise storage facilities. Ergoflex chairs were supplied to provide both ergonomic and longlasting support. In the main space, tailored Sculpt and Penta seating created colourful zones to break up the large area and provide everyday comfort.

Collaborative seating and study zones

Natural lighting and wood finish

Flexible soft seating configurations

Flexible classroom furniture

TeacherWalls with captive sliding door system

Quiet individual study booths
