

Case Study: Farnham Heath End School (FHES)

As trusted partners of Weydon Multi Academy School, Pinnacle were appointed to create a variety of inspiring learning environments for FHES.

FHES required an LRC, 2 science laboratories, 8 classrooms and 2 changing rooms consistent with the design scheme across the Weydon MAT schools. We worked with two different contractors on-site and direct with the School to ensure that all the rooms were ready for teaching as required. We supplied a variety of seating and study solutions within the LRC and optimised functionality and longevity for the science worktops and benching. In the classrooms, the School's accent colours were incorporated within the Lockerwall for design continuity.

Location:
Heath End, Surrey

No of Students:
900

Duration:
6 weeks

LRC Book Capacity:
6280
