Gladesmore Community School

Gladesmore Community School in Tottenham, approached Pinnacle Furniture to design and complete the refurbishment of the female and male washrooms.

Gladesmore Community School had the desire to update their dated washrooms to sleek, modern washrooms with a hotel feel. We installed full height IPS duct panelling systems in solid grade laminate and non-slip vinyl flooring in both washrooms. In the washing areas, Pinnacle fitted 2400mm Corian wash troughs with sensor taps to improve efficiency, with bespoke full width mirrors above. The cubicles had 44mm thick doors and pilasters with 30mm divisions.

Urinals protected by a modesty panel

44mm thick doors in each cubicle

Non-slip vinyl flooring

Vanity unit with sensor taps

Full-height cubicle system
