LADY MARGARET SCHOOL

Lady Margaret School awarded Pinnacle the task of refurbishing their classrooms with both loose and fitted furniture to create an aesthetically modern and contemporary look. The theme of grey, white and red was opted for, to give the classrooms a monochrome feel.

Durable and practical dark grey carpet provided a stylish contrast to the white walls and ceilings which kept the rooms light and airy. The carpet was complemented by grey Postura Plus chairs which are extremely comfortable and robust. These chairs also comply fully with EN1729 height regulations and posture and sitting

requirements so are a product well worth investing in. They can also be stacked up to 12 high to save space. The school also purchased Rectangular FlexiTables in a pale grey finish. These tables are long lasting but stylish and seamlessly fit in with the colour scheme of the classrooms.

CASE
STUDY

SPECIFICATION

- Refurbish classrooms and study areas

LOCATION

- Fulham, London

SCOPE OF WORKS

- LockerWall and StorageWall
- Classroom tables and chairs
- Flooring

To create a stunning visual impact, post-box red LockerWalls were installed as a unique design feature, making it a focal point of each classroom. Pinnacle also equipped the classrooms with white StorageWalls which complemented the clean lines of the decoration and furniture.

Other study points with minimalist white worktops and red Silhouette 4 leg stools were installed, making the area vibrant yet still maintaining the contemporary look.
