MARLBOROUGH COLLEGE

Marlborough College is one of the most well-known and respected independent schools in the country. The architects managing the refurbishment of their Museum Block asked Pinnacle Furniture to design and install furniture that reflected the age and tradition of both the building and the college while providing up-to-date facilities and learning.

The Great Hall is a lovely room that was being fully refurbished under the programme. We built a shelving system that matched the wooden beams and panelling in the hall while bring in a touch of colour inside the bookcases with pink and blue acrylic and LED backlighting. The wooden storage specification was a

wooden veneer outer finish with solid wood edging, 50mm carcass to carry the weight of books, and a metal frame interior which enables easy adjustment, labelling and interchange of the shelves between units.

CASE
STUDY

SPECIFICATION

- Library and classroom furniture

LOCATION

- Marlborough, Wiltshire

SCOPE OF WORKS

- Library shelving with integral lighting and metal shelves
- IT workstations
- IT benching
- StorageWall

Around the balcony of the Great Hall are a number of study benches, with a clever floating design to enable maximum student leg-room, marmoleum worktops, frameless frosted glass divider screens, and IT facilities to provide an excellent study facility in a inspirational setting. Two classrooms were also furnished as part of the same programme of works; the

furniture included marmoleum topped student tables, stacking wenge veneer classroom chairs and a fixed storage run that incorporated a teacher's station. Due to the age and character of the building, the installation was particularly complex and involved ornate skirting and detailed worktop installation in the bays.
