

# Reigate Grammar School

Reigate Grammar School appointed Pinnacle Furniture to transform their newly built Sixth Form Centre into a functional space that complemented the contemporary feel of the environmentally sustainable building.

The building has beautiful high ceilings with wooden beams on display creating a rustic, contemporary feel against the landscape surrounding it. The Centre consists of mainly open plan areas with an eclectic mix of glass and wood. For the library, we provided soft seating in a combination of blue, green and grey fabrics, with wooden coffee tables. In other areas of the Centre, we supplied desks with oak effect worktops and blue smart, classroom chairs to reflect the colour scheme of the library.

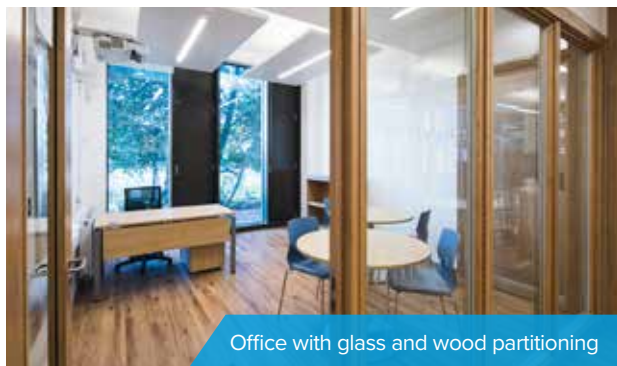

Classroom with wooden beams

Reading area in the library

Exterior of the building

Office with glass and wood partitioning

ICT room with cable managed desking
