Tomlinscote School

Tomlinscote School, in Surrey, commissioned Pinnacle Furniture to complete the refurbishment of their existing Food Technology room and the prep room.

The School wanted the Food Technology room to be bright and modern, with all of the workstations designed so that the pupils faced the front of the room. Pinnacle built the workstations using our Capacity Storage range, coupled with solid grade laminate for the worktops. We used a vibrant yellow finish on some of the units and supplied contrasting purple Postura Plus stools, to inject some colour into the space. A TeacherWall was installed with shelving, trays, sliding dry wipe doors and cupboards.
