

Case Study: Royal Docks Academy

The Royal Docks Academy is a co-educational secondary school, and part of the BMAT Multi Academy Trust in Newham, London. Our Lead Project Consultant, Roger, was delighted to be working with the London school again over the summer holidays.

Our Senior FFE Designer, Ellie, designed the spaces to create three new science laboratories and provide washrooms to complement the modern facilities of the Rotunda.

Location:
Newham, London

Project Value:
£530,000

Student No:
844

Duration:
8 weeks
